

Ngati Tuwharetoa Geothermal Assets Ltd. Updates

**Tuwharetoa mai
Kawerau ki te Tai**

New Zealand Geothermal Workshop 2018

World's largest geothermal process heat operation

Recent Highlights

Improvements to the clean-steam plant

Successful well maintenance and work-overs at KA47 and KA27

THE COUNTRY | Dairy

Maori groups work with Japanese firm on \$32m Kawerau milk processing plant

8 Feb, 2018 12:00am

4 minutes to read

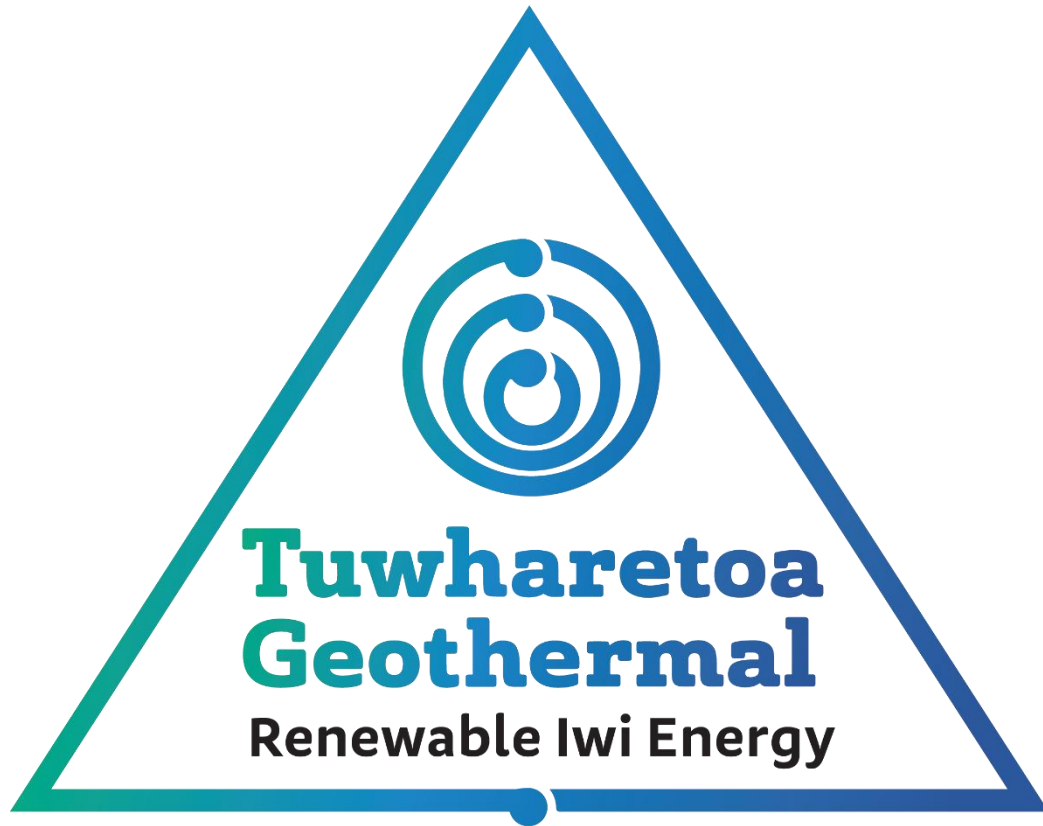

BusinessDesk

Clean steam supply to Kawerau milk processing plant

TOPP1 power plant operations moving in-house

Kawerau Geothermal Opportunities

At least 10 PJ additional thermal energy in consented geofluid take

Around 4 PJ thermal energy currently available in separated water

Ideal energy supply to help industries transition to low GHG process heat and electricity

Lower-temperature cascade uses

Potential for additional power plant development

Kia ora!
